EBAss Workshop

41st Congress of the European Underwater & Baromedical Society
Amsterdam, 19-22 August, 2015

1. The use of the European Code of Good Practice (ECGP) in European Hyperbaric Facilities.

It will include a forum discussion with a chapter-by-chapter analysis of the ECGP from the perspective of the hyperbaric nurse and technician.

Participants will have the chance to present, analyze, compare and contrast their hyperbaric practices and suggest new ideas for further clinical improvements.

The aim of the discussion is to:

- detect any possible burdens in the implementation of the ECGP into clinical practice
- produce a document with comments and suggestion for the next review of the ECGP
- bring together hyperbaric nurses and technicians around Europe and discuss common issues and challenges in their daily practice

2. Visit at the AMC hyperbaric Unit

The visit will include an orientation tour by a nurse or a technician of the facility. Nursing and technical practices will be demonstrated and discussed.
